

H

ow You Make It Happen

You start by ordering *Time Travelers: A Living History*. As you open it, you'll find your 'Team Leader' instructions – Eight Simple Steps to setting up this amazing program – nestled in a beautifully designed and illustrated manual.

One of the first steps will be to gather a small team: A Costumer (a creative someone to either 'build' or sew various costume pieces), and one parent for each grade level. All the instructions, photos, and easy fill-in-the-blank forms your parents and Costumer will need are in your manual, ready to be copied and distributed.

You'll want to let your teachers know about the program so we've provided promotional material and plenty of notices to get them excited and onboard.

Finding volunteers to be your actors will be your next bit of daring. The manual is brimming with ideas on how and where you can discover your 'shining stars,' from local Senior centers to artistic parents just waiting for their "casting call." (Plus an extra easy way that worked for us.)

The actors will of course, need scripts. The good news is, you don't have to be Shakespeare. We provide all the scripts. They're grade-appropriate, humorous, and captivating for the students and teachers alike.

For a fun finale, we provide you with unique thematic puzzles – ready to be copied and handed out to the kids. The puzzles leave a lasting impression and help reinforce the history lesson (shh, don't tell the kids...).

To get a more intimate look, see *A Time Travelers day*.
